Notes:

- The unique ID number is what Apple calls the "rollout number," assigned to a store project when it becomes active. It's prefixed by an "R" in all Apple store identification.
- Average household income at the time the store was added, usually provided by mall management, and based on the mall's sales territory. Stated in U.S. dollars.
- Confirmed stores are indicated with a "c" while unconfirmed stores are indicated by an "x"
- Store designs: V1.x = wood, V2.x = stainless steel, V3.x = all glass w/floating roof
- A store's square-feet is reported only when confirmed
